

Genitals - CMPT Mk 2 Module 4: Epididymal Cysts

Price inquiry: +48 605999769, kontakt@openmedis.pl

Product code: SM03609

A part of the Clinical Male Pelvic Trainer - learning "hands-on" male pelvic examination

REALISM Soft tissue genitals VERSATILITY Fits with both Standard (60950) and Advanced (60951) trainers CLEANING Skin surface washable with soap and water SAFETY Latex free

Genitals - CMPT Mk 2 Module 3: Tumors

Price inquiry: +48 605999769, kontakt@openmedis.pl

Product code: SM03608

A part of the Clinical Male Pelvic Trainer - learning "hands-on" male pelvic examination

REALISM Soft tissue genitals VERSATILITY Fits with both Standard (60950) and Advanced (60951) trainers CLEANING Skin surface washable with soap and water SAFETY Latex free

Genitals-CMPT Mk 2 Module 1: Normal

Price inquiry: +48 605999769, kontakt@openmedis.pl

Product code: SM03604

A part of the Clinical Male Pelvic Trainer - learning "hands-on" male pelvic examination

REALISM Soft tissue genitals VERSATILITY Fits with both Standard (60950) and Advanced (60951) trainers CLEANING Skin surface washable with soap and water SAFETY Latex free

Genitals - CMPT Mk 2 Module 7: Indirect Inguinal Hernia

Price inquiry: +48 605999769, kontakt@openmedis.pl

Product code: SM03612

A part of the Clinical Male Pelvic Trainer - learning "hands-on" male pelvic examination

REALISM Soft tissue genitals VERSATILITY Fits with both Standard (60950) and Advanced (60951) trainers CLEANING Skin surface washable with soap and water SAFETY Latex free

Genitals - CMPT Mk 2 Module 7: Indirect Inguinal Hernia

Price inquiry: +48 605999769, kontakt@openmedis.pl

REALISM Soft tissue genitals VERSATILITY Fits with both Standard (60950) and Advanced (60951) trainers CLEANING Skin surface washable with soap and water SAFETY Latex free

Testicle Self Examination Model

Price inquiry: +48 605999769, kontakt@openmedis.pl

Product code: SM01483

Made from soft material, these life-size model features 2 lumps in each testicle. Perfect for teaching TSE (Testicle Self Examination). Supplied with carrying bag.

Testicle Self Examination Model

Price inquiry: +48 605999769, kontakt@openmedis.pl

Product code: SM01484

Self-examination of the testicles is just as important as self-examination of the female breasts for early detection of tumours. Providing exceptional realism, this simulator features soft, thin outer skin with delicate underlying structures and four embedded, simulated tumours. Ideal for teaching proper palpation techniques. To maintain the lifelike feeling of the skin, baby powder (included) should be applied from time to time.

Size: 23.5 x 16 x 6.5 cm, weight: 0.5 kg

Prostate Examination Trainer

Price inquiry: +48 605999769, kontakt@openmedis.pl

Product code: SM01485

The Prostate Examination Trainer is used in medical simulation and clinical training for the demonstration and practice of digital rectal examinations (DRE). The trainer includes 4 different prostates to train professional palpation methods (side position or bent forward) and diagnostic skills associated with rectal examinations.

The index finger is inserted into the rectum, facilitating palpation of the rear part of the prostate, where the majority of prostate carcinomas are found. The shape, position and consistency of the prostate are assessed, allowing irregularities, induration and nodes on the otherwise smooth surface of the prostate to be felt.

The following stages are included:

- Normal prostate
- Advanced prostate carcinoma
- Prostate carcinoma at an early stage
- Benign prostatic hyperplasia (BPH)

For reference and self-control, the trainer also includes the corresponding transrectal sonographic imaging (transrectal ultrasound, TRUS) for each stage. While in use, the prostate and the sonographic images are hidden and cannot be seen by the trainee.

The compact shape of the DRE Trainer makes it easy to store and the perfect skill trainer for every medical simulation lab.

Rectal Examination Trainer Mk 2

Price inquiry: +48 605999769, kontakt@openmedis.pl

Product code: SM01531

Procedure: Male Rectal Examination

Our rectal examination model comprises a realistic representation of the buttocks, anus and rectum enabling the practice of diagnostic skills associated with rectal examination.

Skills Gained:

- Digital examination of the prostate
- Digital rectal examination
- Proctoscope insertion and use
- Professional-to-patient communication

You will receive:

- 60122 1 Mk 2 Rectal Examination Perineum - Normal
- 60123 1 Mk 2 Rectal Examination Perineum - Pathology
- 60121 1 Mk 2 Rectal Examination Prostates (Set of 5)
- 00293 1 Tube of water-based lubricant
- 1 Lower torso
- 1 Base
- 1 Carry case

Portable base for Histero, Procto and Uro Simulator System

Price inquiry: +48 605999769, kontakt@openmedis.pl

Product code: SM03861

Convenient and easy to attach to a desk or table edge are features of the ETXY-OP STANDARD support that can be used with any ETXY surgical unit.

The ETXY-OP multipurpose base is designed to couple the surgical units of the ETXY Histero, Procto and Uro Simulator System. It's made in acrylic and stainless steel, to assemble the replaceable surgical unit, which is made of Neoderma. The ETXY Standard base model is robust and provides a versatile and functional option with the ease of coupling at a table edge or desk, taking up less space than the anatomical support.

Clinical Male Pelvic Trainer (CMPT) Mk 2 - Standard (Light Skin Tone)

Price inquiry: +48 605999769, kontakt@openmedis.pl

Product code: SM01530

Our anatomically accurate trainer is an ideal platform for teaching and learning 'hands-on' male pelvic examination and diagnosis. The user-friendly design, combined with clear anatomic landmarks and a range of pathologies creates a realistic training experience for students across all levels of healthcare education.

Skills Gained:

- Correct examination procedure of male pelvis
- Examination and evaluation of:
 - Normal anatomy
 - Testicular abnormalities
 - Abdominal and pelvic pain
- Dry catheterisation

You will receive:

- 60952 CMPT Module 1: Normal
- 60959 CMPT Abdominal Insert
- 60960 2 CMPT Pubic Bone
- 60961 2 CMPT Foreskins Pack (each pack contains 2 foreskins & 3 lubricant sachets)
- 1 Lower torso
- 1 Support base
- 2 Carry cases - 1 modules, 1 trainer

Prostate examination trainer

Price inquiry: +48 605999769, kontakt@openmedis.pl

Product code: SM01482

This trainer allows the realistic practice of the digital prostate examination. The model comes with 10 different prostate inserts. 5 of these insert can be placed inside the model simultaneously, the teacher can easily switch between them using a steering switch.

The inserts are:

- 1x normal
- 2x prostate gland enlargement
- 2x prostatitis
- 5x cancer

Because this model is made of special soft material it gives a lifelike impression and is a teaching aid that cannot be replaced.

Prostate Examination Simulator

Price inquiry: +48 605999769, kontakt@openmedis.pl

Product code: SM01469

This simulator consists of a male abdomen body and 4 different interchangeable prostate glands which can be inserted to allow realistic practice in diagnosis by rectal examination. Supplied with lubricant, cleaner and transport case.

The 4 prostate glands represent the following characteristics:

- Benign, slightly enlarged, but otherwise normal
- Beginning stage of carcinoma, a discrete, hard nodule is palpable in the upper right quadrant
- The spread of carcinoma is demonstrated; the small nodule has increased in size and has become an external hard mass on the surface of the gland
- Totally replaced with carcinoma, the entire gland feels hard and irregular

Size: 54.5 x 38 x 30.5 cm, weight: 11 kg

Clinical Prostate/Rectal Examination

Price inquiry: +48 605999769, kontakt@openmedis.pl

Product code: SM01470

This unique trainer has a realistic feel to practice a clinical examination and diagnostic technique. The trainer has a realistic anus and rectum mounted within the buttock shape and presents in the left lateral position. Both the rectum and the five interchangeable prostates are replaceable. When in use the prostate is hidden and cannot be seen by the trainee. To make the change over from one prostate to another could not be simpler, lift the lid, unplug and replace.

Features:

- Allows for procedural skills training for rectal examination.
- There are 5 interchangeable prostates:
 - asymptomatic
 - bilateral benign
 - unilateral benign
 - bilateral carcinoma
 - unilateral carcinoma
- rectal polyp

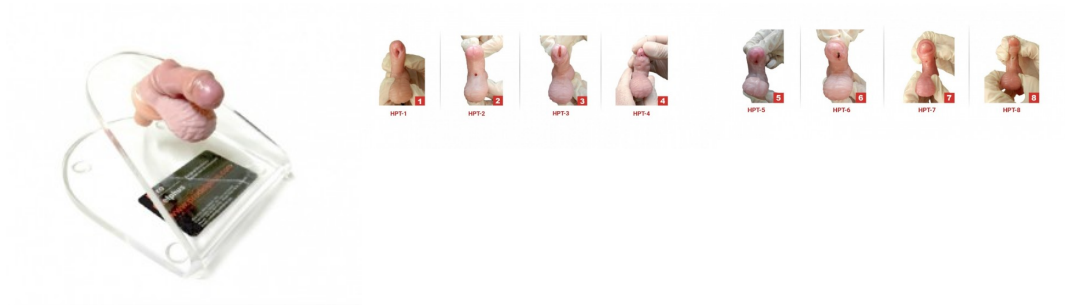

Skills:

- Use of a proctoscope
- Digital rectal examination
- PR examination technique and diagnosis
- All parts are latex free and washable

SIMULATORS FOR TRAINING IN HYPOSPADIA SURGERY

Price inquiry: +48 605999769, kontakt@openmedis.pl

Product code: SM03863

With up to 8 simulations of malformation of the urethra, the Hypospadias Trainer (HPT) allows clinical analysis and surgical considerations for each case, according to its presentation. The HPT allows training of hypospadias surgery, enabling the practice and improving the technique using real instruments. The model is composed by an acrylic base and one of the 8 surgical units presented below, to be chosen as needed. All the HPT surgical units are compatible with the acrylic base.

Surgical units available:

- Distal and coronal hypospadias
- Proximal hypospadias (penoscrotal)
- Distal and coronal hypospadias
- Distal and coronal hypospadias
- Distal and glanular hypospadias
- Distal and glanular hypospadias
- Mid shaft distal penile hypospadias
- Mid shaft distal penile hypospadias

PATHOLOGY SIMULATOR OF THE EXTERNAL MALE GENITAL TRACT

Price inquiry: +48 605999769, kontakt@openmedis.pl

Product code: SM03862

The URO-GNM Simulator for hands-on training of invasive procedures of the male external genital system. The anatomical planes between the urethra and the bulb spongy bone, corpora cavernosa and fascia of Dartos are present for dissection and will present bleeding at this time. Among the possible surgeries demonstrated or practiced are postectomy of phimosis and paraphimosis, the glans shaver, the glandectomy, Peyronie's surgery, application of penile prosthesis, vasectomy, reanastomosis of the vas deferens, uni or bilateral hydrocele.

Mutifunctional EVE Simulator for Proctology

Price inquiry: +48 605999769, kontakt@openmedis.pl

Product code: SM03741

With the ETXY-Procto simulator the approach and removal of rectal tumors gain insights never seen before. Treat fissures and fistulas with the use of real instruments and identify cleavage planes with the endoscopic method. Perform surgeries using TEO (Transanal Endoscopic Operation), where the cleavage planes can be dissected between the tumor and the intestinal wall. Our technology provides a safe, realistic and innovative training for both physicians and students. The multifunctional base of this simulator can also be used

for hysteroscopy and endourology, with the exchange of its surgical units made of Neoderma. Components and spare parts:

- Reusable anatomical base, made of fiberglass
- Artificial vagina for surgical unit support
- Surgical unit for diagnosis of pathologies

Optional pathologies:

- Rectum with 2 polyps, 2 diverticula, and hemorrhoids
- Rectum with 1 fistula, 2 polyps, 2 diverticula, and hemorrhoids
- Rectum with 2 fistulas
- Rectum with 3 fistulas
- Rectum with 1 fistula, and hemorrhoids
- Rectum with 2 fistulas, and hemorrhoids
- Rectum with 3 fistulas, and hemorrhoids
- Rectum with 3 polyps
- Rectum with 1 fistula
- Rectum without pathologies

Multifunctional Simulator for Endourology

Price inquiry: +48 605999769, kontakt@openmedis.pl

Product code: SM03749

Acquire skills in prostatic resection, removal of stones, polyps and tumors in a simply way and with complete realism. The Neoderma allows the use of laser interventions just like a real patient. Learn also the process of applying double "J" and much more in this simulator that's unique in the market.

Note: Resections performed in Neoderma only work with bipolar energy in the presence of saline solution, and must be requested for this purpose.

The practicality of the ETXY anatomical base for training in endourology The multifunctional base of this simulator can also be used for hysteroscopy and proctology, with the exchange of its surgical units made of Neoderma. Components and spare parts:

- Reusable anatomical base, made of fiberglass
- Surgical unit of the urinary system with bladder
- Support for the surgical units of prostatic pathologies
- Set of 6 different surgical units of prostatic pathologies
- Support for the surgical unit of the urinary system with bladder and kidneys
- Surgical unit of the urinary system with bladder and kidneys
- Support for the surgical unit of the urinary system with bladder

Male Rectal Examination Trainer - Advanced (Light Skin Tone)

Price inquiry: +48 605999769, kontakt@openmedis.pl

Product code: SM03603

The Advanced Male Rectal Examination Trainer offers realistic and repeatable training in the core skills of digital rectal and PR examinations. It is also suitable for training in the identification of abnormal and pathological conditions.

OVERVIEW

- Simulation of sphincter contractions allows trainees to assess anal tone
- Left lateral positioning
- Addition of impacted faecal matter allows trainees to recognise and distinguish this common finding
- Advanced simulator supplied with a normal and pathological perineum
- Prostates are quickly and easily interchangeable allowing for discrete set up in assessment conditions
- High quality illustration pack of 9 external anal conditions

REALISM

- Anus with resting tone and the ability to contract with the use of a pulse bulb
- Soft, part
- Softer, more realistic prostaable buttocks
- Improved anal rimtes

VERSATILITY

- Trainer comes with a left lateral stand, and an additional Standing Position stand is available to widen training scenarios

CLEANING

- Remove any excess lubricants, enemas, suppositories, or creams used
- Clean product with a soft damp cloth, using warm water and mild detergent
- Ensure trainer and its components are completely dry before storing

SAFETY

- This product is latex free
- Only use water based lubricant, such as the one supplied with the simulator (other lubricants may damage or weaken the silicone)
- Wear gloves at all times and remove all jewellery before use
- Lubricate your examining finger before performing a digital rectal exam
- Do not use excessive force on the pulse bulb or anus
- Always secure items safely and ensure that the perineum is away from sharp or heavy objects that could cause a puncture

ANATOMY Male anatomy:

- Buttocks
- Anus
- Rectum
- Prostate
- Perineum (Pathological perineum with polyp and rectal cancer)
- 4 abnormal prostates:

Benign unilateral enlarged prostate

Benign bilateral enlarged prostate

Unilateral carcinoma

Bilateral carcinoma

- Professional to patient communication
- Digital examination of the anus, rectum and prostate
- Assessment of anal tone
- Identification of impacted faecal matter in the rectum
- Identification of external ano-rectal conditions

Clinical Male Pelvic Trainer (CMPT) Mk 2 - Advanced

Price inquiry: +48 605999769, kontakt@openmedis.pl

Product code: SM01529

Our anatomically accurate trainer is an ideal platform for teaching and learning 'hands-on' male pelvic examination and diagnosis. The user-friendly design, combined with clear anatomic landmarks and a range of pathologies creates a realistic training experience for students across all levels of healthcare education.

Skills Gained:

- Correct examination procedure of male pelvis
- Examination and evaluation of:
 - Normal anatomy
 - Testicular abnormalities
 - Abdominal and pelvic pain
- Dry catheterisation

You will receive:

- CMPT Module 1: Normal
- CMPT Module 2: Varicocele
- CMPT Module 3: Tumors
- CMPT Module 4: Epididymal Cysts
- CMPT Module 5: Hydrocele
- CMPT Module 6: Orchitis/Epididymo-orchitis
- CMPT Module 7: Indirect Inguinal Hernia
- CMPT Abdominal Insert
- 2 CMPT Pubic Bone
- 2 CMPT Foreskins Pack (each pack contains 2 foreskins & 3 lubricant sachets)
- 1 Lower torso
- 1 Support base
- 2 Carry cases - 1 modules, 1 trainer
- 1 LED pen light
