

Simulation breast plate for tracheotomy care

Price inquiry: +48 605999769, kontakt@openmedis.pl

Product code:

This throat-plate is designed to be worn like a necklace (attached behind the neck).

Main advantage:

- Its main purpose is to practice exercises about handling and cleaning a tracheotomy tube, whether for medical professionals (nurses, care assistant...) or for the patients' close relatives.

Supplied without tube. Note: This model is not designed for practicing surgery.
