

Rat phantom

Price inquiry: +48 605999769, kontakt@openmedis.pl

Product code: M01384

The Squeekums Rat manikin allows students, lab technicians, and handlers to learn how to confidently handle and safely manage lab rodents. The tail of this amazing rodent model can be conveniently detached and disposed of, while also having the capability of IV access at the caudal vein site. Tiny replaceable ears help students learn ear tagging procedures. The model is fully articulated and extremely realistic. Head, feet, and limbs move in a natural manner.

Squeekums comes with its own protective case, IV accessories, artificial blood, and instructions.

Rat Dissection Model

Price inquiry: +48 605999769, kontakt@openmedis.pl

Product code: MZ04012

This 6-part life-size model is a valuable tool to study zoology, providing a realistic reproduction the anatomy of the rat. The ventral dissection exposes heart and lungs, liver, intestine, male and female genital systems. The internal organs are removable for closer examination.
