# OphthoSim - Eye examination simulator

Price inquiry: +48 605999769, kontakt@openmedis.pl

Product code: SM01647

Immersive Learning Platform redefines Ophthalmoscopy Training. OphthoSim is a hand-on simulation system that radically transforms how students learn to diagnose and treat eye pathologies. Its proprietary software and accompanying tools empower students to actively diagnose real-world eye conditions within a simulated environment.
