

Model of the Worker Bee, 25x enlarged, 3 parts (A. mellifica)

Price inquiry: +48 605999769, kontakt@openmedis.pl

Product code: MZ01818

Detailed **model of a bee** at 25x magnification. Our new **bee model** is supplied with a base. This **bee anatomical model shows** an adult bee cut in mid-section to present the internal structure of the insect. In the model, one leg is detachable, so you can demonstrate the basket with collected pollen. Additionally, the honey sac attached to a piece of intestine is removable to demonstrate the sting and venom. The presented bee model consists of a total of 3 parts.
