

## Snake Skeleton Specimen

**Price inquiry:** +48 605999769, [kontakt@openmedis.pl](mailto:kontakt@openmedis.pl)

Product code: M01660

This **snake skeleton specimen** consists of real bones which make all details easily recognisable, just as they are in their natural state.

- Skeleton size: **31 x 7 x 1.5 cm**
- Mounted on wooden base
- Individual bones are numbered for easy identification
- Supplied with transparent plastic protective cover

## Endotracheal intubation of the snake

**Price inquiry:** +48 605999769, [kontakt@openmedis.pl](mailto:kontakt@openmedis.pl)

Product code: MZ04015

Our realistic snake simulator has a detailed reproduction of the mouth cavity. The glottis and trachea are opened.

The endotracheal intubation processes can be practiced on the simulator. It is possible to insert tubes or alternative ventilation aids into the trachea. The snake has a heart marking "H" and a stomach marking "S" on the body as an indication.
