

## BLS Dog Phantom

**Price inquiry:** +48 605999769, [kontakt@openmedis.pl](mailto:kontakt@openmedis.pl)

Product code: MZ02409

- Fully articulated steel skeleton with ribcage, and separated toes
- Representation of trachea and esophagus which allows for practical intubation training
- Representation of nasal passage to allow for nasogastric intubation training
- Representation of cephalic vein to practice venipuncture and catheterization in both front limbs
- Chest compression function with feedback monitor which provides feedback on speed and depth of compressions
- Representation of ear and simulated debris to practice ear cleaning techniques
- Ideal for practicing restraint and bandaging techniques

### Procedures:

- Training,
- intubation,
- nasogastric intubation,
- catheterization,
- for basic life support
- injection
- bandaging

### Removable parts:

- tongue
- venipuncture tubing
- laryngopharynx component
- ear capsule
- compression monitor
- belly capsule
- leh cover
- venipuncture fluid bag

## CPR Dog Manikin

**Price inquiry:** +48 605999769, [kontakt@openmedis.pl](mailto:kontakt@openmedis.pl)

Product code: M01364

CasPeR the CPR Dog provides training in mouth-to-snout resuscitation with individual-use, disposable airway bags. These economical disposable shield/lung bags eliminate cross contamination between students and the need to disinfect the manikin after every use. This dog manikin can be used to teach proper hand placement for compressions, depth of compressions, airway maintenance, femoral pulse check, and adequate ventilation. The model has no indication function, the teacher has to judge proper exercise. Airways are changed quickly and without tools.

Comes with 100 pieces of Replacement Airways.

## Canine Manikin for CPR, splinting and bandaging

**Price inquiry:** +48 605999769, [kontakt@openmedis.pl](mailto:kontakt@openmedis.pl)

Product code: M01391

A full-sized, realistically made dog mannequin designed to teach first aid to an animal. It has working lungs and an artificial pulse built to teach mouth-to-snout resuscitation.

### Main features:

- It has disposable lungs and simulates a pulse.
- Enables mouth-to-mouth resuscitation.
- Possibility of using the model for learning to put on the rails and bandaging.

### Set contains:

- storage case,
- kneeling pad,
- brush
- 5 disposable lungs.

### Additional information:

- You can buy face masks.
- Pictures are for illustration only.
- The color of the material used may differ from the actual colors.
- The individual elements of the mannequins are washable
- Available spare parts

## Dog phantom for CPR training

**Price inquiry:** +48 605999769, [kontakt@openmedis.pl](mailto:kontakt@openmedis.pl)

Product code: MZ01906

A multipurpose, realistic mannequin of an adult dog for CPR training. The scale 1: 1. The mouth and snout are connected to separate artificial lungs that allow a realistic movement of the chest when the air flows through the channels placed inside the trainer. The chest is built in a way that allows compressions. Phantom also has an active pulse with the ability to manually simulate rhythmic or arrhythmic heartbeats. All limbs are adapted for splinting and bandaging. The fangs are made of a material similar to rubber, while maintaining the best possible sanitary requirements.

### Main functions:

- resuscitation,
- intubation,
- chest compressions,
- heart rate simulator
- multifunctional limbs e.g. for bandaging

### Set contains:

- 1 natural size mannequin
- 4 inflatable lungs
- 1 foam insert for compressions
- 1 simulator imitating the pulse

## CPR training dog "CooPeR"

**Price inquiry:** +48 605999769, [kontakt@openmedis.pl](mailto:kontakt@openmedis.pl)

Product code: MZ03974

Our canine CPR doll is designed for educational purposes to teach individuals how to perform cardiopulmonary resuscitation (CPR) techniques in dogs.

With CooPeR, trainees can practice proper CPR techniques, including chest compressions and ventilation, in a controlled environment. This training opportunity ensures that veterinarians can respond effectively in emergency situations and potentially save a dog's life. Manual femoral pulse control is possible. CooPeR comes with 100 pieces of lung/airway systems and a training mat.

## Basic CPR Dog

**Price inquiry:** +48 605999769, [kontakt@openmedis.pl](mailto:kontakt@openmedis.pl)

Product code: MZ01954

Canine basic life support is the same user friendly trainer as Advanced Sanitary CPR Dog. Students may practice the appropriate rate, pressure and position of cardiac massage and coordinate the respiratory cardiovascular functions. A visible chest rise appear when correct ventilations are applied.

Includes soft carrying case, 10 nosepieces, and three lower disposable airway.

## Military Working Dog Simulator (MWD)

**Price inquiry:** +48 605999769, [kontakt@openmedis.pl](mailto:kontakt@openmedis.pl)

Product code: MZ04016

The "Marshall" military working dog simulator represents a Belgian Malinois and corresponds in size and weight (30 kg) to a real dog and has movable joints.

Military working dogs are used in many areas by the military and police and, like their human comrades, can be injured in the line of duty. Marshall helps train vets, K9 Combat First Responders and dog handlers

With Marshall you can present a variety of realistic scenarios during training.

Made of silicone with internal skeleton. Body cover made of robust material so that Marshall can be exposed to adverse environmental influences such as moisture and dirt without being damaged.

### **Marshall offers the following features:**

- Handling and rescue techniques
- Arterial pulse control
- flexible tongue
- Basic cardiopulmonary resuscitation techniques (without chest lift)
- Endotracheal intubation (without chest lift)
- Nasotracheal intubation (without lifting the chest)
- Movable jaw for muzzle training
- Cut paw for bandage training
- palpable ribs
- basic needle decompression/thoracocentesis technique (without airflow)
- IV training on a forelimb (for catheter placement, without blood flow)
- Amputation stump for tourniquet training
- Robust coat due to firefighting textiles
- Various barking, whimpering and howling sounds available

## Advanced CPR Dog

**Price inquiry:** +48 605999769, [kontakt@openmedis.pl](mailto:kontakt@openmedis.pl)

Product code: M01365

The advanced sanitary CPR dog provides each student with their own sanitary muzzle and nosepiece with a one-way valve. The muzzles may be disinfected and reused, while the nosepieces and lower airways are disposable. In addition to practice in assisted breathing, students may practice the appropriate rate, pressure, and position of cardiac massage; and coordinate the respiratory cardiovascular functions. An IV can even be established for more advanced training. The Advanced CPR Dog is connected to a small box that displays a light when the correct ventilation volume is applied, another light indicates correct position for cardiac massage, a third light indicates correct compression depth, and an audible beep and light indicates excessive pressure is being applied. A visible chest rise appears when correct ventilations are applied. Includes soft carrying case, six muzzles, 10 nosepieces, and three lower disposable airway.

## Critical Care Canine Phantom

**Price inquiry:** +48 605999769, [kontakt@openmedis.pl](mailto:kontakt@openmedis.pl)

Product code: M01400

A realistic phantom of an adult dog with cervical and vascular access, designed to learn how to perform intensive therapy in emergency situations. It has a realistically rendered trachea, esophagus and epiglottis, artificial pulse and functions for splinting and bandaging.

### **The trainer allows you to learn the following:**

- airway management,
- ventilation,
- endotracheal intubations,
- mouth-nose resuscitation,
- circulation with external chest compressions

In addition, it has working lungs and an artificial pulse as well as the function of splinting and bandaging.

### **Set contains**

- the carrying case are a kneeling pad,
- endotracheal tube,
- syringe,
- brush,
- 5 disposable lungs.

### **Additional function (additionally payable)**

- The opportunity to learn how to properly treat a femur fracture
- Femur fracture

Additional information: Colors may differ from those shown in the pictures

## Advanced Airway CPR Dog Manikin, endotracheal placement, bandaging

**Price inquiry:** +48 605999769, [kontakt@openmedis.pl](mailto:kontakt@openmedis.pl)

Product code: M01397

A full-sized phantom dog with very realistically made respiratory tracts - trachea, esophagus, epiglottis. It has working lungs and a perceptible pulse.

### Main features:

- It has disposable lungs and simulates a pulse.
- Enables mouth-to-mouth resuscitation.
- Possibility of using the model for learning to put on the rails and bandaging.
- Possibility of placing an endotracheal tube

### Additional information:

- You can buy face masks.
- Pictures are for illustration only.
- The color of the material used may differ from the actual colors.
- The individual elements of the mannequins are washable
- Available spare parts
