

Shock wave apparatus PowerShocker LGT-2500S

Price inquiry: +48 605999769, kontakt@openmedis.pl

Product code: SR03497

WHAT YOU WILL GET:

Thanks to the wide application of the shock wave, you can effectively treat e.g. such common diseases as: heel spur, jumper's knee, bunions, wrist pain, painful shoulder syndrome, tennis elbow and many others related to the musculoskeletal system.

The therapy will allow your patients to avoid pharmacological treatment, significantly accelerating the process of their rehabilitation.

You will notice the first effects of the therapy after just a few treatments.

You can successfully use the shockwave if you are: a physiotherapist, doctor / orthopedist or perform cosmetic procedures.

You will reduce the operating costs of the shockwave device thanks to the pneumatic mechanism equipped with a compressor.

Technical specification:

- frequency: 1-17Hz
- pressure: 1-4 Bar (with an accuracy of 0.1 Bar)
- number of channels: 1
- display size: 7", touchscreen
- quiet work
- treatment protocols
- user programs
- camera size: 39.5 (L) x 39 (W) 19.4 (H) cm
- camera weight: 8.5 kg (without applicators)
- power supply: 100-240V, 50-60Hz

Set contains:

- Shock wave apparatus PowerShocker LGT-2500S
- 1 x PowerShocker applicator
- 1 x replacement kit
- 1 x PowerShocker Applicator Transmitter - 15R
- 1 x PowerShocker Applicator Transmitter - 20R

Shock wave apparatus PowerShocker LGT-2500S Plus
