

Comprehensive Lower Jaw Model (Left Half) with Diseased Teeth, Nerves, Vessels & Glands, 19 part

Price inquiry: +48 605999769, kontakt@openmedis.pl

Product code: MA02364

The front section of bone and all the teeth are removable from the half lower jaw, one incisor is longitudinally sectioned. Nerves, blood vessels, the sublingual and submandibular glands are shown. These diseased teeth in this dental model show various stages of cavities from a small and easy-to-treat example on an incisor, through to advanced degradation of a molar, showing exposed root. Using this half lower jaw model it is simple to explain the necessity for good tooth care and demonstrate dental anatomy. Every original 3B Scientific® Anatomy Model gives you direct access to its digital twin on your smartphone, tablet or desktop device. Enjoy using the exclusive virtual anatomy content with the following features:

- Freely rotate your digital model and zoom in and out
- Display hotspots and their anatomical structures
- Augmented Reality (AR) feature starts your virtual anatomy model
- Anatomy Quiz function to test and improve your anatomical knowledge with instant results and final score evaluation
- Drawing function that allows image customization with save and share function
- Useful Notes function to help you with your personal learning
- Possibility to learn both male and female anatomy
- Easy access to 3D content both online and offline
- Available in 11 languages
