

Fetal skull, 13 weeks old

Price inquiry: +48 605999769, kontakt@openmedis.pl

Product code: MA02295

Perfect reproduction of the fetal skull. At first glance, this model is hard to distinguish from the real skull and gives an impressive overview of the development of the skull in the womb.

Specification:

- dimensions: 5.9 x 4.2 x 4.6 cm

Fetal skull, 30 weeks

Price inquiry: +48 605999769, kontakt@openmedis.pl

Product code: MA02323

This model shows a human fetal skull at 30 weeks gestation.

Specification:

- size: 12 x 12 x 27 cm
- weight: 0.4 kg

Fetal Human Skull 40 weeks with Calvarium Cut

Price inquiry: +48 605999769, kontakt@openmedis.pl

Product code: MA02327

We are excited to offer what is, perhaps, the only fetal skull with the calvarium cut. The detail present in this skull, including the ossicles, all calvarial sutures, and fontanelles, will guarantee its value as a teaching tool both for the educator and practitioner. By removing the calvarium, osteologists are able to learn the complex anatomy of the endocranium, especially including the pathways of the foramina of the skull base and the orbit.

Didactic Foetal Skull, 38. week

Price inquiry: +48 605999769, kontakt@openmedis.pl

Product code: MA01154

A very realistic model of a 38-week foetal skull manufactured from our unique bone-like material. The separate skull bones are clearly shown and meticulous moulding distinguishes such detail as sutures, fontanelles and the external auditory meatus. Supplied with key card.

Fetal skull model, 17 weeks

Price inquiry: +48 605999769, kontakt@openmedis.pl

Product code: MA02609

This model shows a perfect cast of the fetal skull. At first glance, this model is difficult to distinguish from the real skull and gives an impressive overview of the development of the skull in the uterus.

Size: 3.9 x 3.4 x 3.3 cm

Product code: MA02602

This model shows a perfect cast of the fetal skull. At first glance, this model is difficult to distinguish from the real skull and gives an impressive overview of the development of the skull in the uterus.

Size: 11.4 x 8.7 x 8.6 cm

Disarticulated Human Fetal Skull, Full Term

Price inquiry: +48 605999769, kontakt@openmedis.pl

Product code: MA02329

This disarticulated skull is from a full term (10 lunar months) fetus. It was part of a medical examiner's comparative pathology collection before going to the Maxwell Museum and is remarkable in its completeness. It was possible to reproduce every bone, small and large, in precise detail. A perfect specimen for study in forensic anthropology, physical anthropology and anatomy.
