

Canine Manikin for CPR, splinting and bandaging

Price inquiry: +48 605999769, kontakt@openmedis.pl

Product code: M01391

A full-sized, realistically made dog mannequin designed to teach first aid to an animal. It has working lungs and an artificial pulse built to teach mouth-to-snout resuscitation.

Main features:

- It has disposable lungs and simulates a pulse.
- Enables mouth-to-mouth resuscitation.
- Possibility of using the model for learning to put on the rails and bandaging.

Set contains:

- storage case,
- kneeling pad,
- brush
- 5 disposable lungs.

Additional information:

- You can buy face masks.
- Pictures are for illustration only.
- The color of the material used may differ from the actual colors.
- The individual elements of the mannequins are washable
- Available spare parts
