

Advanced Airway CPR Dog Manikin, endotracheal placement, bandaging

Price inquiry: +48 605999769, kontakt@openmedis.pl

Product code: M01397

A full-sized phantom dog with very realistically made respiratory tracts - trachea, esophagus, epiglottis. It has working lungs and a perceptible pulse.

Main features:

- It has disposable lungs and simulates a pulse.
- Enables mouth-to-mouth resuscitation.
- Possibility of using the model for learning to put on the rails and bandaging.
- Possibility of placing an endotracheal tube

Additional information:

- You can buy face masks.
- Pictures are for illustration only.
- The color of the material used may differ from the actual colors.
- The individual elements of the mannequins are washable
- Available spare parts
