

Testicle Self Examination Model

Price inquiry: +48 605999769, kontakt@openmedis.pl

Product code: SM01484

Self-examination of the testicles is just as important as self-examination of the female breasts for early detection of tumours. Providing exceptional realism, this simulator features soft, thin outer skin with delicate underlying structures and four embedded, simulated tumours. Ideal for teaching proper palpation techniques. To maintain the lifelike feeling of the skin, baby powder (included) should be applied from time to time.

Size: 23.5 x 16 x 6.5 cm, weight: 0.5 kg
