

Dog pelvis model with the hip

Price inquiry: +48 605999769, kontakt@openmedis.pl

Product code: M01661

Product information: Dog Hip Model

This skeleton model helps vets provide better information and advice to their patients' owners. The "Dog Hip" model presents one healthy and one arthritic bone. This facilitates the comparison of the two bones for students and patient owners.

- For a firm hold, the model is mounted on a white base
- Dimensions (L x H x W): **18 x 34 x 14 cm**
- **Weight: 0,55 kg**

The Canine Hip Model shows the following structures:

- Body of the ilium
- Major trochanter
- Femoral head in the acetabulum
- Herniated disc
- Femoral neck
- Nerve
- Sacrum
- Third trochanter
