

Equine Palpation/ Colic Simulator with Equine Neck Venipuncture and Intramuscular Injection

Price inquiry: +48 605999769, kontakt@openmedis.pl

Product code: M01691

A realistic palpation horse simulator in natural size. It allows performing venipuncture and intramuscular injection. The simulator comes equipped with inflating latex intestines to familiarize students with the symptoms of colic and abdominal pain.

Horse Body Features

- Modeled as a standard 15 hand Quarter Horse
- Steel reinforced epoxy/fibreglass construction with water resistant components for ease of cleaning
- 1.5m at the shoulder and 2.25m from nose to tail. Widest point is 0.6m
- 5 section inflatable latex GI Tract. Right and left ventral colon, right and left dorsal colon, and cecum. 3m section of small intestine with mount
- Spleen and left kidney attached with the renosplenic ligament. Palpable aorta capable of simulating a pulse
- Palpable soft uterus with cervix, urethra and broad ligament
- 3 sets of interchangeable ovaries; anestrus, estrus, and estrus with follicle
- Abdominocentesis function with replaceable pad; fluid reservoir and palpable linea
- Comes standard in black(Custom breed / paint available for an additional cost)
- Artificial, removable tail
- Soft, durable perineum panel
- Replica polyurethane pelvis
- Inflatable vinyl rectum
- Recycled plastic base

The Equine Neck Venipuncture/IM Injection is removable from the horse body and may be used as a stand alone unit. Can be purchased separately.

Features include:

- Jugular venipuncture with palpable veins
- Easily replaceable latex vein tubing that can endure multiple punctures; includes 5 sets of veins
- Mechanical system allows the veins to be pressurized
- Long lasting, easily removable, washable, replaceable hide covering with mane
- IM site that can endure multiple punctures and accept fluid injections
- Soft silicone head with flexible ears and well rendered anatomy illustrates facial injection sites and accepts a bridle

- Rolling Stand, adjustable for height, rostral tilt, and 90 degree rotation
