

Ruminant stomach model

Price inquiry: +48 605999769, kontakt@openmedis.pl

Product code: MZ01885

The not much reduced model provides a detailed and practical look at the four ruminant stomach compartments. It is slightly smaller than the real stomach of a ruminant. The model separates in the middle line, revealing internal structures. Includes 3 removable parts.

Main advantages:

- Presents the external and internal structure of the ruminant's stomach (including four compartments)
- Full-colored, textured details
- 2 fully detachable parts
- The cross-section begins in the centerline

Additional information:

- Dimensions: approx. 28x18x35cm
- Weight: approx. 1.13kg
