

## Sheep model, 11-parts, 1/2 life size

**Price inquiry:** +48 605999769, [kontakt@openmedis.pl](mailto:kontakt@openmedis.pl)

Product code: MZ01895

Didactic model of a sheep on the base, reduced by about 2 times. Intended for educational purposes for students. It has the ability to divide into 11 separate parts of the body and organs. The model presents the muscular structure of a sheep on one side, while on the other the outer structure is visible. It is possible to divide the whole model in the sagittal section, thanks to which it presents the internal structure.
