

Model - arterial leg ulcer, epithelization phase, small size

Price inquiry: +48 605999769, kontakt@openmedis.pl

Product code: SM01996

Produkt information: Model - arterial leg ulcer, epithelization phase, small size

A realistic wound model simulating leg ulcer in the epithelization phase as a result of peripheral arterial vascular occlusion.

Additional information:

- The small surface of the model covers only a part of the lower leg
- For longer use, it can be fixed with a special skin glue.
- All materials used in this product are dermatologically harmless.
- Model supplied with a case.
