

## Brain model, life size, 5 parts

**Price inquiry:** +48 605999769, [kontakt@openmedis.pl](mailto:kontakt@openmedis.pl)

Product code: MA02262

This life-size brain model presents important landmarks and areas of the cerebral cortex. The right half is painted so that four brain lobes can be distinguished:

- parietal
- occipital
- temporal
- leading

The left half can be divided into four parts:

- anterior and parietal
- temporal and occipital
- brainstem
- cerebellum

It is painted so that you can see 5 areas of the cerebral cortex:

- motor cortex
- sensitive bark
- visual cortex
- motor center (Broca area)
- auditory cortex
- Wernicke center

### specifications:

- weight: approx.1.5 kg
