Sensory motor cushion (disk) Mambo Max Standard Cushion, blue, 33 cm (with pump)

Price inquiry: +48 605999769, kontakt@openmedis.pl

Product code: SR00232

It is recommended for all those who spend a long time in a sitting position. It corrects posture defects by forcing you to sit in the correct position. It strengthens the muscles of the back and abdomen.

The pillow is used for deep sensation exercises and can be used for rehabilitation after ankle and knee injuries. The sensorimotor pillow allows you to perform balance exercises and improves motor coordination.

The pillow is also used for foot massage - it has sensory spikes that improve blood circulation and stimulate the feet receptors.

Set contains:

- disk / pillow with protrusions
- pump
