

Adult Heart Transparent

Price inquiry: +48 605999769, kontakt@openmedis.pl

Product code: FR02355

Adult heart for multipurpose is a realistic artificial human heart that is majorly used by hospitals, researchers and medical schools for research & development as well as to train medical students and residents with various medical practices. Our transparent heart model is compatible with endoscopic equipment and it is used whenever the optical transparency is crucial for research and training purposes. The picture represents the phantom/model without a water tank. An optional water tank helps researchers in obtaining an enhanced view of the internal structure of the heart. The chambers and vessels are anatomically correct.
