

## X-RAY hip model, flexible

**Price inquiry:** +48 605999769, [kontakt@openmedis.pl](mailto:kontakt@openmedis.pl)

Product code: FR02428

The flexible hip x-ray phantom contains real human bones and offers the unique opportunity to take real x-rays. The phantom consists of the entire pelvis, including the coccyx, the two lumbar vertebrae (L4 + L5), and the thigh stump. The soft material makes this product ideal for palpation.

The natural bones used may contain individual pathological changes, minor structural defects or mounting holes, depending on availability. **Specification:**

- size: 50 x 40 x 25 cm
- weight: 2 kg
- model delivered in a sturdy carrying case
