

## Hemiplegia Simulator

**Price inquiry:** +48 605999769, [kontakt@openmedis.pl](mailto:kontakt@openmedis.pl)

Product code: SM02516

### Product information: Hemiplegia Simulator

The Hemiplegia Simulator is a wearable simulator that enables users to experience paralysis on one side of the body (hemiplegia). This helps them to gain an understanding of patients' or family members' disabilities due to stroke or similar conditions. It includes a curriculum that addresses the physical effects of hemiplegia, plus teaching tools like presentation slides and assessment activities.

### Contents

- One-size-fits-all simulator with an adjustable cane, arm, sling, wrist brace, knee immobilizer, eyepatch and ear plugs (may be used on either side of the body)
- Carrying/storage case
