

## Miniature pelvic model with a birthing doll

**Price inquiry:** +48 605999769, [kontakt@openmedis.pl](mailto:kontakt@openmedis.pl)

Product code: SM02640

This detailed model of the female pelvis along with a birthing doll makes it possible to demonstrate the birthing process. The doll has a head with noticeable fontanels and a soft fabric body that can be easily guided through the birth canal. The perfect model for midwives and anyone who wants to explain and show the birthing process. Delivered in a fabric cover with a drawstring.
