

## Model for learning to collect blood from the ear of a pig

**Price inquiry:** +48 605999769, [kontakt@openmedis.pl](mailto:kontakt@openmedis.pl)

Product code: MZ02664

This anatomically correct pig ear model has a tactile silicone lateral ear vein that runs through the ear and connects to the blood pump. The ear can be folded back to expose the vein for insertion of the needle.
