

## Wound moulage sacral decubitus, cleaned including stand

**Price inquiry:** +48 605999769, [kontakt@openmedis.pl](mailto:kontakt@openmedis.pl)

Product code: SM02967

This moulage shows the sacral area with a pressure ulcer after a surgical cleaning. The necrotic tissue has been removed, wound pockets are present.

### Additional information:

- The wound is available either freshly cleaned or with wound exsudate.
- The moulage can be used for demonstration of vacuum wound therapy.
- The moulage adheres on simulated patients or manikins, it can be fixed with special skin glue for longer training sessions.
- The anal fold is represented to demonstrate the typical challenges when dressing the wound.
- The moulage is delivered in a holder and can also be removed.
