

## Blood Pressure Simulator

**Price inquiry:** +48 605999769, kontakt@openmedis.pl

Product code: SM03104

Use this award-winning Blood Pressure Simulator, a one-of-a-kind training tool, to teach and practice proper techniques for taking blood pressure prior to actual clinical experience. This wearable simulator distinguishes blood pressure sounds and Korotkoff phases. Students can use it on standardized patients or manikins to make practice scenarios even more realistic.
