

Non-Injured Complete Lower Trainer (NICL)

Price inquiry: +48 605999769, kontakt@openmedis.pl

Product code: SM03121

The Non-Injured Complete Lower (NICL) is a lower trainer specifically created to connect with any TacMed Simulation upper torso trainer for simulations not requiring injuries to the lower portion of the body.

Key Features

- Anodized aluminum chassis for strength, durability, and all-weather resistance
- Integrates securely with any TacMed Simulation upper unit
- High-quality life-like silicone skin covers entire unit
- Extremely durable for everyday use, and is easily repaired or patched should the unlikely 'injury' happen
- Total weight and overall weight distribution are anatomically correct
- Joints are totally enclosed in silicone for both realism and durability and allow a natural bend without folding, kinking, or stretching
- Solid urethane core integrates with steel joints and structural aluminum for added strength
- Capable of withstanding significant abuse without breaking
- Multi-step molding and casting process unites and bonds skin with core to minimize seams, and prevent separation and maintenance issues
- Created from a life cast to ensure maximum realism
- Built with the same level of quality and attention to detail as featured in all TacMed Simulation products
