

Vaginal Cuff

Price inquiry: +48 605999769, kontakt@openmedis.pl

Product code: SM03736

For vaginal cuff closure training using open, laparoscopic, or robotic technique, this mimetic tissue cylinder offers lifelike tactile qualities for suturing practice. It may be used for repeated training; simply cut a fresh edge once a training session is complete. Length is approximately 150 mm (c. 5.9 "), lumen diameter is c. 36 mm (c. 1.4 ") and wall thickness c. 5 mm (0.2 "). Appropriate for use with our GYN Trainer.
