

Uterus for training - female dog model

Price inquiry: +48 605999769, kontakt@openmedis.pl

Product code: MZ03743

This simulation of a canine uterus, enables the training of a gynecological examination via speculum or endoscope. Artificial insemination can be trained with a balloon catheter or with endoscope-guided catheterization of the cervix. The uterus presents a detailed mucosa with secondary folds, the dorsomedian fold and a cervix.
