

PAT Junior - Children's Obesity Trainer

Price inquiry: +48 605999769, kontakt@openmedis.pl

Product code: SM03818

Children and adolescents should also experience the effects of obesity and the limitations it entails. As a result, they can be sensitized to proper nutrition and develop empathy for overweight people. A perfect tool for nutritional advice or social training. PAT Junior consists of a weight vest with about 5 kg and a volume suit for body heights from 125 to 160 cm with a maximum torso circumference of 100 cm, elastic bands on the back can adapt the suit to the appropriate size.
