

Elderly Pressure Ulcer Foot

Price inquiry: +48 605999769, kontakt@openmedis.pl

Product code: SM03878

Chronic foot ulcers affect elderly the most, we have designed the Elderly Pressure Ulcer Foot for instruction on care and cleaning of pressure ulcers in various stages. Pressure ulcers are more likely to appear over pressure points such as heels, tips of toes, between toes, or anywhere the bones may protrude and rub against socks, shoes, or bed sheets.

This replica contains all four severity stages: - Stage I: Located on the bottom of the toe. Surface of the skin is red. - Stage II: Located on the bottom of the foot just under the toe. Surface of the skin is red and deeper into the skin layers. - Stage III: Located on the side of the foot. Surface of the skin is red, looks more like a crater, and reaches the bottom layer of the skin. - Stage IV: Located on the heel of the foot. Surface of the skin is red. A great amount of tissue has been damaged, including muscle, bone, joints, and tendons.
